

PROTECT YOUR RIGHT TO VOTE!

OVERVIEW

- Justified by The Big Lie, 19 Republican-controlled legislatures passed 31 new laws restricting voter access last year, with many more bills to come.
 - Some bills would allow state legislatures to reject election results outright.
 - The Supreme Court may soon rule that state courts cannot protect voters from these suppressive actions.
-

WHAT'S AT STAKE

These bills are designed to suppress Democrats, voters of color, senior voters, and poor voters by:

- Eliminating or severely restricting Vote by Mail and ballot Drop Boxes
 - Aggressively purging voter rolls
 - Requiring proof of citizenship
 - Making it a crime to assist voters with returning mail-in ballots, including helping people with disabilities
-

SOLUTIONS

- **MORE Democrats in Congress**, to pass the *Freedom to Vote: John R. Lewis Act* which provides federal protection against state voter suppression laws
 - **Democratic Governors**, to veto voter restriction laws passed by Republican state legislatures
 - **Democrat-controlled state legislatures**

U.S. Senate and House of Representatives

Control of the United States Senate and House of Representatives are up for grabs in the Nov. 8, 2022 election. In general, Democrats are fighting to protect our right to vote, while today's extreme Republicans want to manipulate election processes so they win no matter what the voters choose.
